Daniel Heffernan/R8/USEPA/US@EPA

Aaron and Melody, Thank you both for your time on the phone this morning. Thanks too for staying in touch with EPA and for letting me know that community members are curious to know what is happening with regard to possible Superfund work in their community . It is fantastic that they want to be involved.

If asked, please let people know that the draft data and report could not be finalized for me to make the June presentation and that by July our information will be ready to present to the stakeholders and community members. I assume it will be associated with the usual ARSG meeting on the 21st, and would be of similar format as that planned for June 16th, but the ARSG coordinators will need to weigh in on that.

If community members want to send letters of support, as well as letters that highlight possible issues/concerns that we will all need to remain aware of in meeting the community's expectations, I would recommend they be sent to: Martha Rudolph, Director of Environmental Programs and that they cc: Gary Baughman, Hazardous Materials and Waste Management Division and Steve Gunderson, Water Quality Control Division

Martha Rudolph, Director of Environmental Programs
Colorado Department of Public Health and Environment
4300 Cherry Creek Drive South
Denver, CO 80246

If you have any questions or concerns, please feel free to contact me directly via phone or email. You may also forward my contact information to others who may want to contact me directly. I have also sent the above information to Lisa Richardson, BLM employee and Silverton resident. I have also copied Jennifer Lane, our EPA community involvement coordinator, Scott Klarich, whose staff work in the Animas Watershed and are in Steve Gunderson's program, and Dan Scheppers, whose staff also work in the Animas Watershed and are in Gary Baughman's program.

Sincerely,

Sabrina Forrest
NPL Coordinator &
Site Assessment Manager
